

LET US GET YOUR SKIN READY FOR THE HOLIDAYS!!!!

OCTOBER 1ST ~ DECEMBER 31ST 2018

***LASER GENESIS WITH GLYCOLIC FACIAL \$150**

This non-invasive laser procedure stimulates new collagen, while the Glycolic Peel helps dissolve the outer layer of dead skin cell. The procedures work synergistically to target large pores, fine lines, mild sun damage, rosacea & redness on the face & neck. With no downtime, this relaxing combo takes about an hour & will bring that healthy glow back, so you are 'photo ready' for the holidays!

***Thinking about MICRONEEDLING this fall?**

This procedure feels like a mild sunburn for a few hours post, then the skin feels tight- allowing the dead, outer layer of skin, to visibly shed for about 5 days. Once the skin has shed, you can resume your normal skin care routine (including use of makeup). This treatment triggers the release of natural growth factors, as well as new collagen & elastin. It's great for issues such as fine lines, uneven skin tone, acne & surgical scars, stretch marks, large pores & mild discoloration. Facial treatments run \$225 - \$295.

***Ask about MICRONEEDLING PLUS for arms & legs!**

We're taking Microneedling to the next level! This combo also includes Laser Genesis & an 8% PRR peel for those stubborn areas of crepey skin & brown spots!

We have 3 levels of Protein Rich Retinol Peels that can be applied immediately post, creating light to heavy peeling, as needed. Set up your complimentary consult with Kendra or Lindsay & they can help you determine which is right for you!

***\$25 off BOTOX Cosmetic**® (per 20 unit syringe)

***\$25 off JUVEDERM XC**® **Injectable Fillers** (per syringe of Voluma, Vobella, Vollure, Ultra or Ultra Plus)

Not sure what you need? Lisa would be happy to meet with you to explain the difference in each product, based on your individual laxity & expectation.

***Are you wearing an effective SUNSCREEN everyday?**

Try our **SOLAR SHADE SPF 50**- This light mineral sunscreen is one of our hottest products & provides broad spectrum protection for delicate, sensitive skin types. With added antioxidants & moisturizers, this sunscreen can be worn alone or under makeup, providing hydration & protection.

SOLAR SHADE SPF 50 is free of dyes, fragrance, parabens, gluten, nuts & soy. Use daily & re-apply every 2 hours if long term UV exposure. **\$21** (1.7 oz tube /savings of \$10)
